- Analysis, design and construction of rare-gas halide discharge lasers — *Buffa R. - Burlamacchi P. - Salimbeni R. - Vanni U. - Matera M.* . . . . . 334

## 19. - Radar, radio navigation and telemetry

- Sea state sensing by the wave tilt probing method — *Chrissoulidis D.P. - Kriezis E.E.* . . . . . 211

- A new technique for the precision DME of Microwave Landing System — *Chiarini F. - Corazza G. - Falciasacca G. - Gori M. - Vatalaro F.* . . . . . 242

- An adaptive sensitive time control circuit implemented with a CCD sampled delay line for clutter rejection in a radar processor — *Bucciarelli T. - Cacopardi S. - Callagiron F. - Bordi R. - Picardi G.* . . . . . 257

## LETTERS TO THE EDITOR

- Radar cross section evaluation of a finite cylinder surmounted by a cone — *Gennarelli C.* . . . . . 96

## 21. - Radio, television and audio

- Analog transmission of TV signal on optical fibre — *Pietroli-sti R.* . . . . . 22

## 22. - Reliability and quality control

- An analysis of the reliability data on electronic components collected by the «Circolo dell'Affidabilità» — *Bobbio A. - Saracco O.* . . . . . 164

- Failure modes induced in TTL-LS bipolar logics by negative inputs — *Canali C. - Fantini F. - Soncini G. - Venturi P. - Zanoni E.* . . . . . 340
